Tuition fees for foreign citizens from non-EU member states payable in advance for one academic year.

## Computer Science

2,700 de euro / year for non - UE prospective students  
3,000 lei / year for UE prospective students

*"Since my childhood, I have been a computer enthusiast: I wanted to know everything about computers, networks and databases. I applied to the university because I learned that it had good facilities and excellently trained teachers. And I was not mistaken: when I graduated, I acquired all the necessary skills and I immediately found a good job. I must admit that I now have the nostalgia of the student life in a European city with a history of two thousand years!"*

Alexandru Buzenco - Student in Computer Science

"1 Decembrie 1918" University of Alba Iulia, Romania

## B.Sc. in Computer Science

The 21st century is the age of technology, bringing computer systems to all areas of our lives.

From business processes to social interaction, from education to government, computer science professionals are at the heart of all information acquisition and exchange.

If you have ever considered taking part in these new developments, if you have ever been fascinated by the Internet or by how computers "think", this is the program for you!

Providing a curriculum developed according to the standards of the European Union, our Bachelor's degree in Computer Science will give you all the tools and skills needed to join in the development of the new generation of software systems. Starting with the theoretical basics on computers, the courses will then emphasize practical applications either in web development, database management or in artificial intelligence.

## What will I be studying?

If you enjoy working on the computer and you wonder how it is built and works, or furthermore if you are interested in developing applications to animate the electronic equipment, why not consider choosing the Computer Science program. A Degree in Computer Science offers you the skills and competences to gain access to good jobs and it recommends you as an essential asset to any company.

Length of studies: 3 years , full time, 180 ECTS.

## Career prospects

The Computer Science specialization trains programmers, analyst - programmers, system software engineers, computer network administrators, database administrators, IT consultants, teachers of Informatics and gives the opportunities to further their studies in a Master`s degree.

The University relates to industry for both teaching and research purposes, which ensures that graduates are best placed to apply their skills to the working environment.

## Why study at Alba Iulia?

"1 Decembrie 1918" University of Alba Iulia is fully accredited and operates according to the standards and best practices developed in the European Union. Most of our professors have had experience in some of the best universities in the World, both from Europe as well as from the United States. Foreign exchange programmes are constantly available for both professors and students. The beautiful and historic city of Alba Iulia provides a stimulating and picturesque backdrop to your student experience.

## How to apply

### Academic requirements

The applicants must present study papers issued by accredited / recognized educational institutions, have good results in education, respectively an average of the study years of at least 7 (seven) corresponding to the scoring system in Romania or the "Good" score, as the case.

### English language requirements

For acknowledged study programs that are carried out in foreign languages, the receiving high education institution will organize a foreign language test. The persons that come from countries where the official language is the language in which the courses are run and the persons who have an internationally acknowledged language certificate will be exempt from this test.

### Documentation requirements

International students from outside the EU who wish to attend a degree programme must comply with the national legislation and "1 Decembrie 1918" University of Alba Iulia Charter.
